

**SBIRT for Health and Behavioral Health Professionals: How to Talk to Patients About Substance Use
Putting it All Together (OASAS)
E-Learning Online Course**

Provided by the University of Missouri-Kansas City School of Nursing and Health Studies
Jointly Provided by Public Health Solutions

Overview

SBIRT for Health and Behavioral Health Professionals: How to Talk to Patients about Substance Use is a 4-hour self-paced course for health, oral health, and behavioral health students and professionals. Learners will watch video demonstrations of brief interventions performed by other clinicians and even practice themselves with a patient through a situational branching exercise. Participants will apply and test their knowledge through quizzes following each module. They will then watch “Putting it all Together” videos and complete knowledge check activities. The goal of this course is to help participants develop their knowledge, skills, and abilities in using SBIRT as an intervention with patients.

Successful Completion

This course offers up to 4.0 nursing contact hours. To receive contact hours, participants must submit a completed evaluation and request for credit form and complete the course with a satisfactory grade of 80% or higher on all module quizzes. CNE Certificates will be emailed approximately 4-6 weeks after satisfactory completion of the course. Non-CE Certificates of Completion are available immediately for electronic download upon satisfactory completion of the course.

Objectives

By the end of this course, students will be able to:

- Define Screening, Brief Intervention, and Referral to Treatment (SBIRT)
- Explain Screening for substance use
- Identify motivational interviewing skills
- List the four steps of a Brief Negotiated Interview (BNI)
- Explain when a Referral to Treatment is appropriate
