PrEP Conversations – Assessing Risk & Counseling with Care Enduring Activity

Provided by the University of Missouri-Kansas City School of Nursing and Health Studies
Jointly Provided by the Clinical Training Center for Sexual Reproductive Health

Description:

Offering pre-exposure prophylaxis (PrEP) effectively starts with understanding individual HIV risk and engaging patients in meaningful, person-centered conversations. This webinar will focus on risk assessment strategies, reducing stigma, and using shared decision-making to offer PrEP as part of a comprehensive sexual health approach.

Objectives:

- Identify best practices for assessing HIV risk in clinical settings
- Apply person-centered counseling techniques to discuss PrEP with patients
- Address common misconceptions and barriers to PrEP uptake

Successful Completion:

To receive contact hours, participants must complete the activity as well as complete the online evaluation and request for credit form. CNE, CME, and Certificates of Completion will be emailed 4 – 6 weeks after submission of the online evaluation/request for credit form.
