Strengthening PrEP Access – Partnerships, Promotion, & Sustainability

Provided by the University of Missouri-Kansas City School of Nursing and Health Studies
Jointly Provided by the Clinical Training Center for Sexual Reproductive Health

Description:

Expanding pre-exposure prophylaxis (PrEP) access requires strong community partnerships and strategic promotion of available services. This final session will explore how clinics can effectively collaborate with community organizations and outreach programs to ensure people know PrEP is available, accessible, and easy to get. Participants will also learn about financial considerations and funding strategies to sustain PrEP services long-term.

Learning Outcome:

Participants will be able to establish collaborative partnerships and implement strategies to promote clinic-based PrEP services while addressing financial sustainability.

Objectives:

- Identify key community partners that can help connect people to PrEP services
- Develop strategies to promote clinic-based PrEP services and ensure the community knows how to access them
- Explain financial considerations and funding opportunities for sustainable PrEP service delivery

Successful Completion:

To receive contact hours, participants must complete the activity as well as complete the online evaluation and request for credit form. CNE, CME, and Certificates of Completion will be emailed 4 – 6 weeks after submission of the online evaluation/request for credit form.

Relevant Financial Relationships:

In accordance with continuing education guidelines, the contributing presenters/trainers/authors and planning committee members have disclosed potential relevant financial relationships with ineligible companies. Ineligible companies are those whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients.

Subject Expert: Brandon Mizroch, MD has no relevant financial relationships with ineligible companies to disclose. .
